WE'VE ALSO INTRODUCED A NEW TAGGING SYSTEM THAT WILL HELP YOU MANAGE YOUR CATTLE BETTER.

PRODUCER (FARMER)

When you place your NLIS Electronic Cattle Tag order with Agriculture Victoria, you will need to nominate to have the tags packed on sticks rather than loose in the bag.

WHAT WE DO?

When placing your order for Allflex tags we will then clearly state that the TSU's or Visual Management Tags are to be part of a matched management set for a Victorian producer who has recently purchased NLIS tags through Agriculture Victoria.

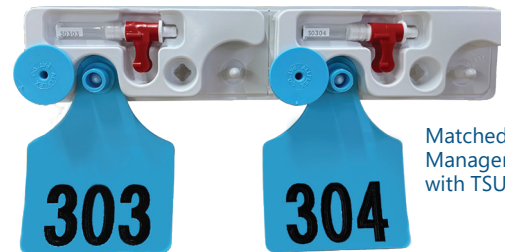

This will allow Allflex to provide the relevant number series to be printed on the Visual Management Tags so that they correspond with the NLIS Electronic Cattle Tags. To do this, Allflex simply require your PIC.

Matched Management with TSU

It is important to note that NLIS Electronic Cattle Tags and Visual Management Tags will not be freighted together. However, they will be able to provide the Visual Management Tags on a matched set tray, to allow the tags to be paired more easily on farm.
