

Electronic Identification (eID)
RapID Evo™ RANGE

RapID Evo - An evolution of the market leading tag[#]

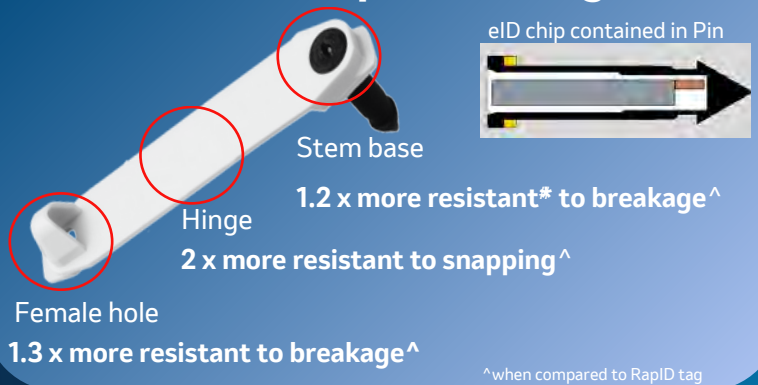

Allflex has been the leader in the sheep eID market for many years with the RapID[®] tag. Our new and improved RapID Evo offers enhanced features to improve the overall tagging experience.

New & improved tag design

Tag with confidence.

- Chip contained in stem to allow for wide panels
- Tamper-proof stem cover eliminates operator contact during application
- Design changes to maximise retention and tag reliability over the life of the animal

NEW! RapID Evo Tag

ENGINEERED to keep you tagging all day long!

RapIDMATIC Evo[®] Applicator

Offering new tag features for improved functionality, reliability and performance that improve speed and accuracy at tagging time.

15 second loading for 20 tags*

Quick and easy loading of tag strips to keep you moving at marking time

Easier tagging[^]

Improved design reduces recoil and hand fatigue when tagging sheep for long periods.

Less jamming during use[^]

Durable applicator - minimises jamming for reliability in the field.

► DURABLE ► RELIABLE ► EASY TO USE

Sheep eID

RapID Evo™ Tag

- NLIS approved (conditional)¹.
- Good visibility when working sheep.
- Strips of 20 – keeps the tagging process moving with quick reload
- Extra wide panels ideal for visibility, print customisation and handling.
- Unique swivel action stem designed to reduce infection and aid in healing.
- Excellent read range, easily read across a sheep race when tagged in either ear.
- Enables 1 or 2 line alphanumeric printing on both the male and female side of the tag.

Tag printing options

RapID Evo Tags offer a wide range of print options to suit the individual needs of sheep farms across Australia.
