

Primary Component

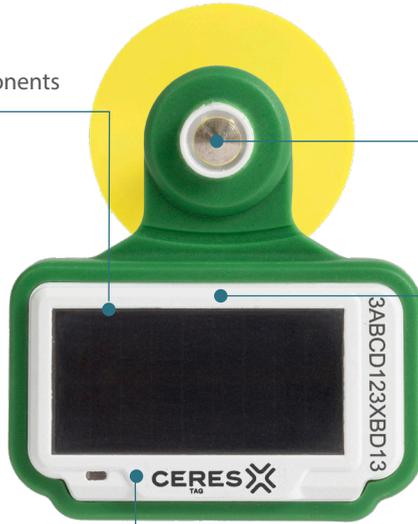

Solar Panel + Technical Components

 Up to 4 data packets per day

 3 years of direct-to-satellite connectivity

 Solar-powered battery

 Operating temperatures from -20°C to +55°C (-4°F to 131°F)

Single-use Pin
Applied using CERES RANCHER applicator

With CERES RANCHER, monitor your animals and receive updates up to 4 times per day via satellite. CERES RANCHER is redeployable.

Pasture Feed Intake

Daily metrics on walking, grazing, resting and ruminating to inform your decisions.

Timely Alerts

Triggered for significant behaviour change which may require investigation or if the animal leaves the boundary.

No Towers Needed

No additional infrastructure required.

Data & Insights

Access valuable and secure insights about your animals on your choice of software.

GPS Location

Know where your animals are and where they've been.

Plug & Play

Check in on your animals wherever you are in the world, 24/7.
