Flexi Mobile 4000C

Mobile and flexible autonomous weighing

Accurately and easily capture valuable livestock data for better decision making. Reduce labour costs, maximise productivity, improve animal welfare and enhance pasture management, to grow your profitability.

Real data, real-time

The real strength of the Flexi Mobile 4000C is its delivery of clean and accurate data, with the Datamars Livestock cloud software. Daily weighing data is transformed into powerful weekly insights, revealing true trends and helping you to better manage your livestock.

- Track animals against target weights or a range of other data
- Filter to identify top and bottom performers
- View and monitor weights by groups or individually
- Instantly share the latest data with third parties
- Cloud based so you can access your data from anywhere

The Datamars Livestock team will commission and configure the system, and provide support and training to get your animals comfortable using the system.

- ✓ Agile, flexible, and can be easily moved by one person.
- ✓ Designed for fast and easy set up.
- ✓ Suitable for fixed and rotational grazing deployments.
- ✓ Huge time savings on mustering and yard work.
- ✓ Maximise production with a complete performance history of individual animals.
- ✓ Take the guesswork out of sales decisions with current, accurate data.
- ✓ Maintain body weight and reduce stress on animals due to fewer trips to the yard.

Livestock monitoring.
Made easy.

FEATURES AND SPECIFICATIONS

✓ **Automatic up to date weights**

Cattle weights are automatically updated in Datamars Livestock, so you consistently have the latest stock weights.

✓ **Unique walk over weighing platform**

The walk over platform is disguised with soil, to create a natural walking surface for stock. This can reduce training time and adoption, while still providing accuracy of weighed animals.

✓ **Exclusion zone**

A cage keeps cattle away from the control box, leads and EID reader.

✓ **Robust waterproof enclosure**

Electronics are stored in an IP-rated enclosure, mounted in a rugged case to withstand the harshest environments.

✓ **EID antenna**

The EID antenna is mounted on hard wood rails, aiding EID read accuracy by reducing interference.

✓ **Mobile data or satellite connection**

Comes with a mobile data (4G/5G) satellite connection option to cover all regions.

✓ **Not suitable for use on public roads**

Should not be towed faster than 20 km/h.

Includes:

✓ Flexi Mobile unit

✓ Control unit (4G, SAT, Wi-Fi options)

✓ MP600 load bars

✓ Solar panels

✓ EID reader and antenna

✓ Exclusion cage

✓ Wheel kit

✓ Drawbar and winch systems

✓ Datamars Livestock subscription (Mobile or satellite data package available)

Product Information

Dimensions (L x W x H)	2.5 m x 2.2 m x 2.5 m (8.2 ft x 7.2 ft x 8.2 ft) (Flexi Mobile 4000C)
Weight	650 kg (1430 lb) (including all electronics hardware)
Product code	880 0004-803 Flexi Mobile 4000C + LTE US 880 0004-805 Flexi Mobile 4000C + LTE LATAM 880 0004-804 Flexi Mobile 4000C + LTE EU 880 0004-806 Flexi Mobile 4000C + LTE ANZ 880 0004-807 Flexi Mobile 4000C + WIFI 880 0004-808 Flexi Mobile 4000C + SAT
