

NEVER LOSE CATTLE AGAIN

Ever lost your cattle? Tag them with mOOvement GPS ear tags and never lose them again. The GPS sensor allows you to track and trace your cattle over long distances.

THE LIGHTWEIGHT/ACTIVE GPS EAR TAG

< 30 gr
Weight

15m
GPS accuracy

5 year
Lifetime

HOW THE MOOVEMENT SYSTEM WORKS

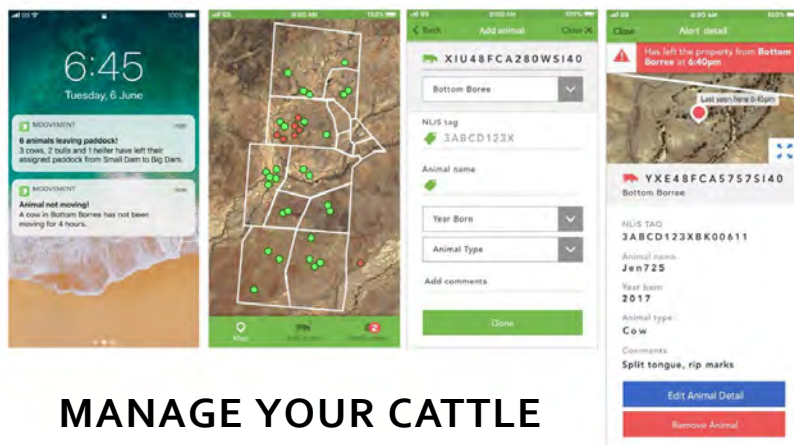

The re-usable GPS ear tag uses a proven double pin system and a built-in solar panel to charge the battery.

- LoRa network for remote areas
- 8-10 kilometer radius per antenna
- Track from anywhere you want
- Tagged and tested in Australia

Phone: 1300 813 500
